Tonight's opening football game with Bishop Egan marks the beginning of a very exciting season, and as we greet our loyal Redskin fans, we would like to share with you some other noteworthy happenings. As I'm sure you have noticed, our stadium has a new lighting system that has upgraded game conditions and made viewing the game much easier for our fans.

Coach Bedesem and his assistants have worked hard to put a tough, well-disciplined team on the field for '85. Both coaches and players hope to better last year's 7-3 record and in the process bring home a championship.

Add to this our talented marching band led by Dr. Daggett and the cheerleading squad, under the direction of Mrs. Hofmann, and you have all the ingredients needed for exciting football over the next ten weekends.

Like John David Bartoe, Neshaminy's first graduate in space, let's all support our team as the countdown begins. Good Luck coaches and players.

Richard H. Evans, Principal
Neshaminy High School

As the Whistle Blows . . .

The Neshaminy Redskins open the 1985 football season against long-time rival Bishop Egan with a host of untested players. Only four starters return from last year's 7-3 team. Returning to engineer the Bedesem 'Bone will be quarterback Tim Ford, and up-front, offensive tackle Terry Murphy. On defense, backs Dan Santhouse and Butch Lange are the only returning starters. Lost to graduation are all-league performers Bill Wagner, Joe Christy, Earl Brown, and Mike Downs. Coach Bedesem and his able staff face the challenge of replacing 27 senior letter winners who brought winning football back to the 'Ridge.

Bishop Egan opens the 1985 season with new head coach Chuck Knowles. Coach Knowles was a long-time assistant to Coach Travers at Egan. Returning to the Eagles will be the respected Coach Bob Molle who will direct the Egan offense attack. Key returning Eagle players include tailback Mike Schultz, slotback Bill Bresnahan, fullback Jim Bickel, offensive lineman Joe Mossbrook and defensive leaders Kevin Everitt and Chuck Anderson.

Will Coach Bedesem find the right formula to continue his winning ways at Neshaminy? Will Coach Knowles inspire his charges to bounce back from last years 34 to 0 rout at the hands of the Redskins? We'll all find out . . .

The Concession Stands are operated by the Neshaminy Jaycees, a non-profit organization. By contract, 20% of our gross sales are donated to the Neshaminy Student Scholarship Fund to provide interest free loans for eligible college students from our school district. Over the last 15 years we've provided over \$22,000 for this fund. We're by far the largest contributor. Another 5% of our sales dollar goes to the School District for field clean-up and maintenance. This averages about \$400 a year. After paying our bills, any profits we realize are returned to the community in many ways. In recent years we built, and paid for the present concessions stands which are used by us and other organizations at the many events held here at the stadium.

We thank you for your patronage.

**“Whatever Happened To”
JOHN-DAVID BARTOE**
Neshaminy Class of 1962

As the announcer said, “Three-two-one—we have a lift off!” John-David Bartoe, Neshaminy High School graduate of the 1962 class, was headed for space. The date was July 29, 1985 and the time was 5:00 P.M. John-David’s family and friends who had come to the launch site were thrilled with the expectation that he would be looking down on them from 200 miles above the earth’s surface. The July 29 launch was spectacular. Even though there were many problems in space, when the shuttle returned to the earth, their mission had been accomplished.

This launch had been planned for July 12, 1985 at 3:30 P.M. However, due to an engine problem, the mission was aborted just three seconds prior to lift off which was a great cause for concern. Anxious moments seemed as hours until John-David, the other astronauts, and the Challenger were all announced to be safe.

While here at Neshaminy High School, John-David was active in the band, dance band, orchestra; gym night; the junior and senior plays; the National Honor Society and the Rifle Club as well as many other class activities. He was always interested in mathematics and science and was an excellent student in all ways.

After high school, John-David obtained his Ph.D. from Georgetown University, Washington, D. C. At the present time, he is a supervisory astrophysicist at the U.S. Naval Research Laboratory, Washington, D.C. where he has performed solar research for almost 20 years.

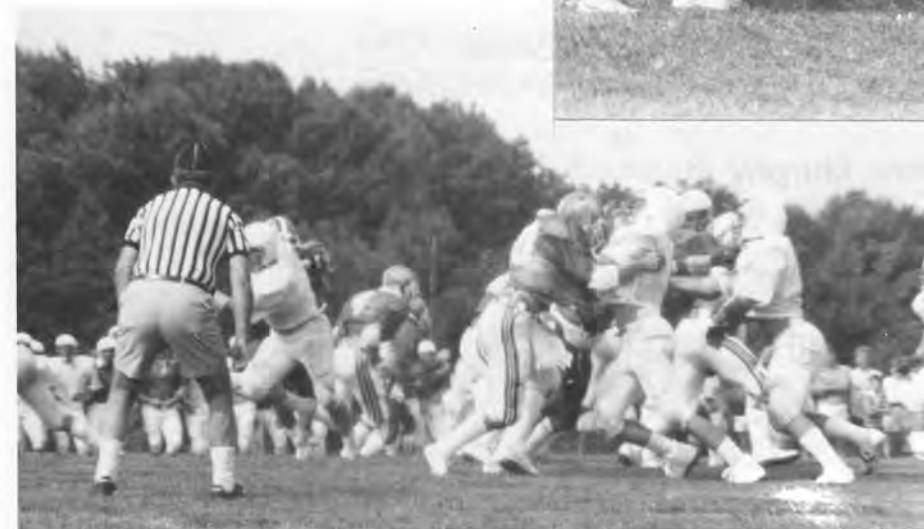

John-David married Phyllis Thorpe who as a high school classmate. She and their three children have been enthusiastic supporters of his projects. An astronaut spends many years in training and must have an understanding family that is willing to be inconvenienced by many separations.

I remember John-David Bartoe as an enthusiastic student who as always willing to support his class and his school in every way possible. His goals were high and he has surely proven that hard work and dedication can achieve great things not only for yourself but also for your family and country.

My wife and I were thrilled when John-David invited us to the launch. We renewed many old friendships and were part of a very special group—relatives and friends who watched our own special astronaut reach far out and find the space beyond the clouds.

We asked Anita ■ ■ ■ How do you choose the right college?

The 94 WYSP disc jockey told us...

"College is the place where you learn to be yourself. You need to choose a college that's big enough to have the latest instructional technology and small enough to be personal.

"At Bucks, I found both. Classes are small, the teachers are excellent and really care about you. And you can choose from more than 40 programs of study.

"Of course, Bucks graduates have transferred to more than 300 four-year schools across the country. It makes sense to attend Bucks for two years before you transfer.

"Besides being close to home and being economical, Bucks has a first-rate academic reputation along with a full range of student clubs and activities.

"You know, luck got me into the radio business, but college is where I learned to make my luck. You can make your start a good one at Bucks."

Where did Anita go to college?

Growing in His Spirit is Exciting!

Football is an endeavor that demands great physical conditioning, the coordination of many individuals as one, and yet teaches judgement and morals like few other sports.
