What is Music?

Music is a science. It is exact, specific; and it demands exact acoustics.

Music is mathematical. It is rhythmically based on the subdivisions of time into fractions that must be done instantaneously, not worked out on paper.

Music is a foreign language. Most of the terms are in Italian, German, or French; and the notation is certainly not English — but a highly developed kind of shorthand that uses symbols to represent ideas. The semantics of music is the most complete and universal language.

Music is history. Music usually reflects the environment and times of its creation often the country and/or racial feeling.

Music is physical education. It requires fantastic coordination of fingers, hands, arms, lip, cheek, and facial muscles, in addition to extraordinary control of diaphragmatic, back, stomach, and chest muscles, which respond instantly to the sound the ear hears and the mind interprets.

Music is art. It allows a human being to take all these dry, technically boring (but difficult) techniques and use them to create emotion. That is one thing science cannot duplicate: humanism, feeling, emotion, call it what you will.

The Parents' Music Club wishes all our music students the Best of Luck during the 2004-2005 school year. We love you all and are proud of the RED RAIDER MARCHING BAND.

He's Only A Boy

Please don't curse the boy down there,
He is my son, you see;
He's only just a boy, you see,
And means a lot to me.

I did not raise my son, sports fan,
For you to call him names;
He may not be a superstar,
But it's a high school game.

Please don't curse the boys down there,
They do the best they can.
They never tried to lose a game.
They're boys and you're a man.

The game belongs to them, you see,
And you are just a guest.
They may not need a fan like you,
Because they deserve the very best.

If you have nothing nice to say,
Please leave the boys alone.
And if you can't enjoy the game,
Maybe you should stay at home.

So please don't curse the boys down there,
Each one's his parent's son.
And win, or lose, or tie, you see,
To us they're number one.
