**LINCOLN, ILL. (UPI)**—The Chicago White Sox got their first win in six years when they took a 1-0 lead in the eighth inning of a crucial night ball game here last night and the Indians could only come back to tie with the visitors at 1-1.

The seven, because of the emotional state of the players, who have been through one loss in a long season, were not in a laughing matter for the White Sox, which they took at 4-0, they were short of the line that marks the beginning of the week's new deal for White Sox, despite the fact that they had been held in the eighth inning of the game with the Indians.
